How To service C4 Transmissions | New York Mustangs

Ford SelectShift. The first automatic transmission to be offered in the Ford Mustang was the C4, which replaced Ford's previous Ford-O-Matic transmission. At the time, the C4 was referred to as the dual-range Cruise-O-Matic, but many enthusiasts refer to it as the green dot transmission. This nickname stems from the two dots on the gear selector.

The C4 is split into two main categories: pre-1970 and 1970 and later. Ford improved the transmission in 1970 and the best way to identify either is to count the input shaft splines. 1970 and later models have 26 splines instead of 24. These later models were also issued with 157- or 164-tooth bell housings.
