### transmission leak | Chevy Corvette Forum

Changing transmission fluid every two years is a good rule of thumb regardless of mileage. This will minimize condensate build-up, keeping you on the road past the 100,000 mile plus mark. Fluid Recommendations. GM recommends Dexron III for all C5 manual and automatic transmissions for proper lubrication. Here is where things get fuzzy.

### 1997-2011 Corvette Fluids and Performance | CC Tech

Place the catch pan underneath the transmission, then unscrew the fill plug. Fluid drains from the transmission quickly at first. When the flow of fluid has stopped, support the bottom pan of the transmission body, then unscrew the bolts. Carefully lower the detached transmission pan and empty the remaining fluid into the catch pan.

The C5 model of the popular Corvette was produced from 1997 to 2004. The C5 does not have a dipstick to check the transmission fluid. The fluid level must be checked by raising the car and accessing the fill plug next to the transmission pan. The car must be raised sufficient to safely access the area.
