LED downlights are unique spotlights that create bright light in different places at home. These lights can be used in the living room, patio, hallway, and deck. These lights are attractive to most homeowners because of the compact design, meaning they won't take up much space. Also, they're energy-efficient, so they'll help you cut down ...

LED Downlights In 2020: 10 Best Reviews & Guide

Fire rated downlights help to prevent the spread of fire and minimise the risk of structural damage/collapse. When a recessed downlight is installed, a hole is cut into the ceiling. This hole reduces the ceiling's natural ability to act as a barrier. Fire rated downlights restore the natural fire integrity of a ceiling.
