Smart Speakers Are Gradually ... - Home · Forrester

Then there's the added cost of production: equipping devices with sensors, buying storage to host the influx of data, and figuring out how to secure that data. In this episode, Frank Gillett doesn't recommend that companies try to become the market "owner" of the smart home.

Smart Homes And The Subscription Economy · Forrester

Smart speaker usage will pick up speed and will eventually shape the smart home devices category: Forrester's ForecastView data predicts that smart speakers will grow at a CAGR of 50.9% to reach 166.2 million in 2022.

The Data Digest: Consumers Want Devices To Talk Back

The vision of a "smart" home as one integrated system is failing. The "connected" value built into the devices and associated services is too narrow and siloed: They don't work together easily or create magical experiences. Furthermore, vendors struggle to lure consumers into paying ongoing subscriptions.
