Foss Kit Plant And Animal

The terrestrial plants used in the FOSS program are varieties that have been developed as food sources for humans and the animals humans raise: alfalfa (a legume), barley, corn, bean, pea, clover, radish, rye grass, wheat, oats, and sunflower. Students encounter them as seeds and grow them in a variety of environments.

Plants and Animals - FOSS

FOSS Next Generation Plants and Animals. The Plants and Animals Module provides experiences that heighten students' awareness of the way that plants and animals meet their basic needs. They observe plant structures and discover ways to propagate new plants from mature plants (from seeds, bulbs, roots, and stem cuttings).
