I wrote about maintenance inspections back in 2010, but I find myself discussing it every day. The 200-hour Phase Inspection Program. High-use King Airs must have a phase inspection every 200 hours. A King Air that flies around 33 hours/month or more is going through a phase inspection every 200 hours.

The Beechcraft King Air family is part of a line of American utility aircraft produced by Beechcraft. The King Air line comprises a number of twin-turboprop models that have been divided into two families. The Model 90 and 100 series developed in the 1960s are known as King Airs, while the later T-tail Model 200 and 300 series were originally marketed as Super King Airs, with the name "Super ...
