Poultry Hatchery Manager. Hatchery managers oversee all aspects of a poultry hatchery. This includes the management of personnel, eggs and equipment. They manage and coordinate, through supervisory personnel, hatchery activities such as egg pickup and delivery, care, incubation and hatching, grading, vaccination, preparation and shipping of chicks.

Poultry Hatchery Manager | agexplorer.com

To increase the probability of strong birds, good hatchery management becomes critical. One management technique is to measure the 'hatch window'. The 'hatch window' is an investigation to check the number of chicks hatched after the eggs have been transferred from the setter to the hatcher. If the eggs are hatching too early, the chicks become susceptible to problems such as dehydration.
