As an indicator of extreme poverty, this poverty rate is also the yardstick for Goal 1 of the Millennium Development Goals (MDGs). The above measures do not necessarily reflect deprivation in human development. Thus in 1997 the UNDP introduced the human poverty index (HPI) for developing countries.

### **WHO | Poverty and development**

While the shift in focus towards prioritizing social development and poverty eradication is welcome, fundamental problems remain. New lending for health and education can achieve little when the debt burden of most African countries is already unsustainable.

### **Structural Adjustment—a Major Cause of Poverty — Global Issues**

For several decades, our country and world have witnessed poverty's damaging influence on child health and development. We've seen how malnutrition, lead poisoning and poor access to quality health care — all ripple effects of financial insecurity — influence a child's ability to think, learn and interact with those around them.
