### Edward R Ford, Architect | Works

Modern architecture is a term applied to an overarching movement, with various definitions and scopes. In a broad sense, early modern architecture began at the turn of the 20 th century with efforts to reconcile the principles underlying architectural design with rapid technological advancement and the modernization of society. It would take the form of numerous movements, schools of design, and architectural styles, some in tension with one another, and often equally defying such ...

### Modern Architecture | Boundless Art History

Modern architecture emerged at the end of the 19th century from revolutions in technology, engineering and building materials, and from a desire to break away from historical architectural styles and to invent something that was purely functional and new.
