Undergraduate Honors Thesis. Notes. Abstract: Though he wrote his theories over 200 years ago, Gottfried Semper's ideas about the four elements of architecture, the primitive hut, and bio-mimicry are still relevant to modern architecture. Because of this, his teachings are especially important in Design 8, the final studio of the undergraduate design sequence.

The Four Elements of Architecture: Gottfried Semper's ...

As compared to the modern ideology that architecture consists of structures made from materials, his theory revolved around the four main elements of the primitive era that were essential to human life. They included enclosure, mound, hearth, and roof.
