The 9-second video starts with a fish lying lifeless on a rock placed in a water body. Just the head of the fish is seen immersed in water, the rest of its body is on the rock. After a few moments, a turtle is seen trying to pull the fish back in the water. This wakes up the fish and it starts to wiggle and gets back in the water and swims away.

Saving Fish From Drowning was not a novel, but an endurance test. If I didn't have to facilitate a book group about this novel, I would not have read past the first 50 pages. I've heard great things about Amy Tan, and haven't read her other stuff -- and won't discount it based on this -- but lordy, I have no incentive to read her work now.

The Fisherman, also known as the Fish Vendor is an NPC that can trade out fish that you caught, into tradable crates. In order to obtain crates from this vendor, you must catch the required amount of fish to trade it into a crate. This may take a long process, but is a significant way to get a beyond decent mount of money.
